

LOS PLANOS

ROUTE	DIFFICULTY	LENGTH	CUMULATIVE GRADIENT	APPROXIMATE DURATION
01	Easy	8,00 km	+ 85 m / - 85 m	45 min- 1 h 15 min

A journey with practically no slopes, recommended for families, which runs through the Planos de Barruera/Erill and Salencar de Barruera. It runs constantly through the area near the Noguera de Tor River: the first stretch travels through the right bank of the river, making a journey to and from Los Planos; and the second stretch, through the left bank, with a circular route by El Salencar. The route begins next to the Boneta Campsite and the Palanca Vella of Barruera taking the road to Erill la Vall. This stretch runs on a level path through Los Planos de Barruera and Erill, combining stretches of road and trail. We finally reach the most difficult stretch of the route, which consists of climbing a 30 m slope, following the bridle path to Erill. Without reaching Erill, at the old road tunnel, the route turns back to arrive again at the Palanca Vella. From there, the second part of the route starts, crossing the Palanca to visit El Salencar. Crossing the suspension bridge, we arrive again in Barruera.

OBSERVATIONS

► Caution in crossing of the "Palancas" over the river and stretches of pedestrian road.
